

90cm Series 7 Box Chimney Wall Rangehood

Series 7 | Contemporary

Stainless Steel and Glass

- This wall chimney rangehood has smart technology that removes steam, grease and cooking odours quickly and efficiently while maintaining a stable extraction rate.
- Stable air extraction, perfect for high-rise apartments
 - With three fan speeds plus a boost function that can achieve an extraction rate up to 20m3/min (1200m3/hr)
 - Intuitive on and off gesture control
 - Air purification function for cleaner air

DIMENSIONS

Height	620 - 1000 mm
Width	895 mm
Depth	520 mm

FEATURES & BENEFITS

- Effective Extraction**
- Three airflow settings ensure that odours, vapour and steam are removed quickly, while a grease filtration system effectively captures grease and oil from the air stream. The additional Boost function can also achieve an impressive extraction rate of up to 20m3/min (1200m3/hr).
- Adapts To Your Environment**

With smart air capability, this rangehood doesn't just reach impressive extraction rates, it keeps it there. Our unique motor control design coupled with smart technology, adjusts to any environment to deliver constant extraction rates, which makes it perfect for any home, especially high-rise buildings and apartment living.

- Simple To Use**
- Intuitive gesture control makes it easy to turn the rangehood on and off with a wave of your hand. A sleek, touch-control panel controls your fan speed as well as the low energy LED lights.
- Cleaner Air**
- An intensive air purification function clears cooking vapours quickly and efficiently, leaving your kitchen air cleaner.
- Seamless Integration**
- When not in use, the motorised central panel automatically closes, for a beautifully streamlined look. This rangehood features sleek black glass and stainless steel styling that will complement any contemporary kitchen.

Easy Installation

This wall chimney rangehood is the perfect partner to your Fisher & Paykel cooktop. It is externally ducted, making it perfect for apartments.

Easy Cleaning

An easy-to-remove drip tray captures any excess cooking oils that accumulate during extraction. Simply remove and empty the tray when full, to ensure you get the best performance out of your rangehood.

SPECIFICATIONS

Fan ratings	
Maximum air movement	1200 m ³ /hr

Maximum sound rating	68 dBA
Installation and cleaning	
Dishwasher safe filters	1
Ducted	Top extraction only
Performance	
Extraction type	Surface
Fan speeds	3
Fan speeds + boost	•
Filter type	Stainless Steel Baffle
Power requirements	
Lighting power	3 W
Supply frequency	50 Hz
Supply voltage	220 - 240 V
Product dimensions	
Depth	520 mm
Height	620 - 1000 mm
Width	895 mm
Ventilation features	
Air quality sensor and purification function	•
Gesture control	•

Intelligent Air	•
Light type	LED
SKU	50239

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
