

60cm Series 9 Contemporary Built-in Coffee Maker

Series 9 | Contemporary

Stainless Steel

Our built-in coffee maker pours a delicious coffee, however you take it. Pairs perfectly with 60cm ovens and companion products.

- Barista-standard coffee just the way you like it, with 13 options from Flat White to Latte or Americano
- Your favourite coffee can be memorized and set to start at the same time each day, so it's ready when you are
- With self-cleaning function for an effortless clean

- Part of our suite of companion products, designed to match aesthetically for flexible configurations.

DIMENSIONS

Height	458 mm
Width	596 mm
Depth	480 mm

FEATURES & BENEFITS

Coffee Choice

Your Coffee Maker has 13 different choices to suit your taste and selection – from Espresso to Latte and more.

Self-Cleaning

The Coffee Maker has a self-cleaning function. It comes with a removable drip tray and a waste container for used coffee grounds.

Seamless Integration

Finished in black reflective glass with a polished metal trim, this Coffee Maker matches the other companion products and the rest of the Fisher & Paykel kitchen family.

Personalise Your Cup

Program an automatic setting to start up at the same time each day and memorise your favourite coffee. Twin LED lights illuminate your beverages so you can see what you are doing on those dark mornings.

Sized To Suit

This 60cm Built-in Coffee Maker is perfect for the compact kitchen and can be placed virtually anywhere. All companion products can be installed at a convenient height to suit your kitchen design and preference.

BARISTA-STYLE COFFEE

The conical burr grinder delivers a consistent grind for the perfect coffee. Set it to suit your preference.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
