- With ample storage and a stylish stainless steel finish, for a timeless look.
- ActiveSmart™ technology helps keep food fresher for longer by constantly maintaining the ideal temperature
 - Spacious bottom freezer with full extension drawer gives easy access to frozen goods

DIMENSIONS

Height	1715 mm
Width	790 mm
Depth	695 mm

FEATURES & BENEFITS

- Activesmart Foodcare**
ActiveSmart Foodcare learns how you live. It's technology which understands how you use your refrigerator and adjusts temperature, airflow and humidity inside to help keep food fresher for longer.
- Design quality**
Our refrigerators are designed and built using quality materials. We use real stainless steel, and solid glass for shelving.
- Clever Energy**

Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means it uses only the energy it needs without compromising on food care.

- Simple Storage**
This refrigerator is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.
- Easy cleaning**
No more permanent dirty marks with our EZKleen feature for stainless steel refrigerators. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

Humidity Control
Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

SPECIFICATIONS

Capacity	
Total gross capacity	519 L
Volume	491 L
Volume freezer	143 L
Volume refrigerator	348 L

Consumption	
Energy rating	Grade 2

Features

Adjustable door shelves	4	Supply voltage	220 - 240 V
Adjustable glass shelves	4

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
