

90cm Series 7 5 Zone Induction Cooktop

Series 7 | Contemporary

Black Glass

Ultimate flexibility. A stand-out choice, with a large cook surface with five cooking zones including a dual zone.

- Child and pet safe – cooktop remains cool to touch until a pot or pan is placed on the surface
- PowerBoost activates a very high heat, bringing liquid to boil in less than a minute
- Touch&Slide controls easily control each cook zone

DIMENSIONS

Height	49 mm
Width	900 mm
Depth	530 mm

FEATURES & BENEFITS

Instant Response

Go from a boil to a simmer in seconds. Fisher & Paykel Touch&Slide controls react immediately when you adjust the temperature so you don’t waste time in the kitchen.

Safer Choice

Induction cooktops only start heating your pot or pan once you’ve placed it on the ceramic surface and stop as soon as you remove it – so you don’t have to worry about curious little fingers or leaving an element on.

Easy Cleaning

The surface around your cookware stays cool when you cook, preventing baked-on spills and making cleaning up a breeze. The durable ceramic cooktop surface just needs a quick wipe after use to maintain its good looks.

Enhanced Features

PowerBoost and GentleHeat deliver either very high or very low heat fast for specialised cooking tasks such as searing meat and melting chocolate. An integrated timer keeps you on track.

Superior Efficiency

No heat is wasted during induction cooking because only the cookware is heated, not the cooktop surface. This makes induction cooktops more energy-efficient than electric or gas cooktops.

Precise Control

Fisher & Paykel induction cooktops offer extremely accurate, consistent temperature control from very high to very low heats, so you can sear, sauté and temper like a pro.

Controls		Zone ratings		Where applicable:
Auto cut-off timer for each zone	•	Centre	1850/2600W (3000W/5500W)	All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.
Minute timer	•	Left front zone (PowerBoost set)	1400W (2200W)	
Soft-touch electronic controls	•	Left rear zone (PowerBoost set)	1400W (2200W)	
Touch and slide controls	•	PowerBoost	up to 5500W	
		Right front zone (PowerBoost set)	1850W (3000W)	
		Right rear zone (PowerBoost set)	1850W (3000W)
