

60cm Series 7 Contemporary Oven, 9 Function

Series 7 | Contemporary

Stainless Steel

With generous capacity and beautiful contemporary styling, this built-in oven will complement your kitchen design perfectly.

- 85L total capacity, with 9 oven functions including Pizza Bake and Roast
- Moisture level control with ActiveVent™ technology
- Non-tip, full-extension shelves for safe removal of hot dishes

DIMENSIONS

Height	598 mm
Width	596 mm
Depth	565 mm

FEATURES & BENEFITS

Multi-Function Flexibility

Nine functions including Roast, Pizza Bake and Fan Grill mean no matter what you're cooking, you've got the right heat to match.

Generous Capacity

With a generous sized internal cavity of 85L total capacity, you can create several dishes at once using multiple shelves.

Activevent Technology

With ActiveVent technology for optimised moisture levels and AeroTech™ for even heat distribution, you'll get perfect results even when using multiple shelves.

Fast And Easy Cleaning

Cleaning this built-in oven is quick and easy thanks to the optional catalytic liners which absorb oil and fat splashes during cooking.

Refined Styling

With sophisticated handle styling and brushed stainless steel, our built-in ovens are designed to match the rest of Fisher & Paykel's kitchen appliance family.

Safe And Sound

The CoolTouch door features triple glazing and a cooling system that ensures it's safe to touch from the outside - protecting both your hands and the surrounding cabinetry.

Controls		Power requirements		Where applicable:	
Audio feedback	•	Amperage	15 A	<p>All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.</p> <p>Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.</p>
