

# Gas on Glass Cooktop, 30cm

Series 9 | Minimal

Black Glass | Natural Gas

Powerful dual flame wok burner, perfect for compact kitchens or paired with an induction cooktop.

- Three burners including two dual wok burners
- A timeless, minimal look to fit any kitchen style, with black ceramic glass cooking zones and a black trim
- A flame-failure safety device; if the flame goes out, the gas turns off
- Removable cast iron trivets and ceramic glass that can be wiped down for easy cleaning

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
