With generous storage and stylish stainless steel design for a timeless look. Perfect for smaller kitchens.

- ActiveSmart technology helps keep food fresher for longer by constantly maintaining the ideal temperature
- Spacious bottom freezer with easy-slide internal drawers to separate storage
- Choose which side you'd like your door hinge on to suit your kitchen layout

## **DIMENSIONS**

Height 1715 mm
Width 635 mm
Depth 695 mm

#### **FEATURES & BENEFITS**

### **Activesmart Foodcare**

Every time you open your refrigerator, the temperature around your food changes. ActiveSmart foodcare adjusts airflow to create a stable temperature, helping your food stay fresher for longer.

#### Easy Cleaning

No more permanent dirty marks with our EZKleen feature for stainless steel refrigerators. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

## **Design Quality**

Our refrigerators are designed and built using quality materials. We use real stainless steel, and solid glass for shelving as well as in our wine cabinet doors.

#### Clever Energy

Your refrigerator adapts to daily use by cooling and defrosting only when necessary. This means your refrigerator uses the energy it needs without compromising on food care.

#### **Humidity Control**

Your fruit and veges need different environments. The humidity control slides in each storage bin create a perfect microclimate for each, which helps keep them fresher for longer.

#### **SPECIFICATIONS**

## Accessories (sold separately)

Joiner kit 819264

#### Capacity

Total gross capacity	414 L
Total net volume	363L
Volume freezer	112 L
Volume refrigerator	269 L

### Consumption

Energy rating Grade 3

#### Features

Adjustable door shelves

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
