| Width | 1180 mm |
| Depth | 480 mm |

FEATURES & BENEFITS

Achieve The Invisible

This high quality integrated rangehood seamlessly blends behind cabinetry in a variety of kitchen layouts. Beautiful in its simplicity, this product has brushed finished surfaces with no visible screws.

Edge To Edge Extraction

Filters effectively reach edge to edge, maximising the capture and extraction of steam, odours and grease.

Full Surface Lighting

LED lighting illuminates the entire cooktop surface so you can ensure you have the perfect sear or ideal reduction. With dimmable lights featuring fade in and fade out features.

Easy To Use

This easy to use rangehood operates with fingertip control of LED-illuminated soft touch buttons. Selected models also come with a remote control.

Quiet And Efficient

Powered by a brushless DC motor, the Integrated Rangehood operates more efficiently, more reliably and with less noise than units with AC motors.

Easy Cleaning

Multi-layered filters effectively trap grease particles during extraction. Designed for simple removal, they're easy-to-clean and dishwasher safe.

Simple Installation

The simple installation process is compatible with most precut cabinetry. The adjustable mounting system can be installed with 16mm to 38mm cabinetry board.

nd energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
