

90cm Series 7 3 Burner Gas Cooktop, Natural Gas

Series 7 | Contemporary

Stainless Steel | Natural Gas

All the essentials in a large cooktop, including a two wok burner for high heat cooking.

- Three burners including a two wok burners
- A flame-failure safety device; if a flame goes out, the gas turns off

DIMENSIONS

Height 59 mm

Width 900 mm
Depth 450 mm

FEATURES & BENEFITS

- Precise Control**
The consistent flame and heat distribution of the burners, including the wok burner, combined with highly responsive dials offer precise heat control. Perfect a slow simmer for sauces or an intense heat for searing steaks.
- Easy Handling**
With flat cast-iron grates, pots and pans can easily be slid across elements, coming in handy in busy cooking environments.
- Safe And Sound**
The flame failure safety device automatically turns off the gas if the flame is accidentally extinguished.

Complementary Design
The brushed stainless steel and polished metal trim has been designed for durability but also provides a modern, stylish finish, matching the Fisher & Paykel family of kitchen appliances.

Easy Cleaning
The stainless steel component is easily accessible and quick to clean. Cast iron trivets provide a durable and stable cooking platform, with rubber feet to prevent them from scratching the cooktop.

Handy Accessories
This cooktop comes with a small pan support and wok stand to complement different cooking styles.

Power requirements		Where applicable:	
Supply voltage	230-240 V	<p>All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.</p> <p>Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.</p>
